Sundry item

Squirt the spray on an area you want to keep free of viruses or bacteria to remove them, with an antibacterial action lasting for 1 week!

Etak Antibacterial Spray α

- Just by being sprayed on an area such as a doorknob or table that you want to keep clean, Etak® (a long-lasting antibacterial ingredient) can prevent the proliferation of viruses and bacteria on the sprayed area.
 - It can also be sprayed on items used by babies or pets. As well as the antibacterial action directly after it is sprayed, the antibacterial Etak® also stays fixed to the surface of the sprayed item after it has dried, so that the antibacterial action continues for 1 week after drying.
- * Not effective against all viruses and bacteria.
 * The duration of the effect may vary depending on the condition of use.
 * The effect is limited to the area where the spray lands.
 * This product is not a drug or quasi-drug.

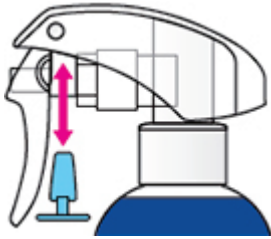

Package	Recommended retail price (tax included)
250 mL (about 800 pushes)	¥1,382

Characteristics

- Just by squirting areas you want to keep clean and quickly wiping them, you can remove viruses and bacteria, with an antibacterial action that lasts for 1 week.
 - Several safety tests have been conducted. * Primary skin irritation test, eye irritation test.
 - Unscented, colorless, alcohol-free preparation.
 - No chlorine-based ingredients.
 - Suppresses unpleasant odors due to bacteria.
 - One bottle contains enough for approximately 800 pushes.
 - Etak is a patented long-lasting antibacterial ingredient.
- * Not effective against all viruses and bacteria.

Usage of Product

Remove the stopper before use. Returning the stopper locks the nozzle.

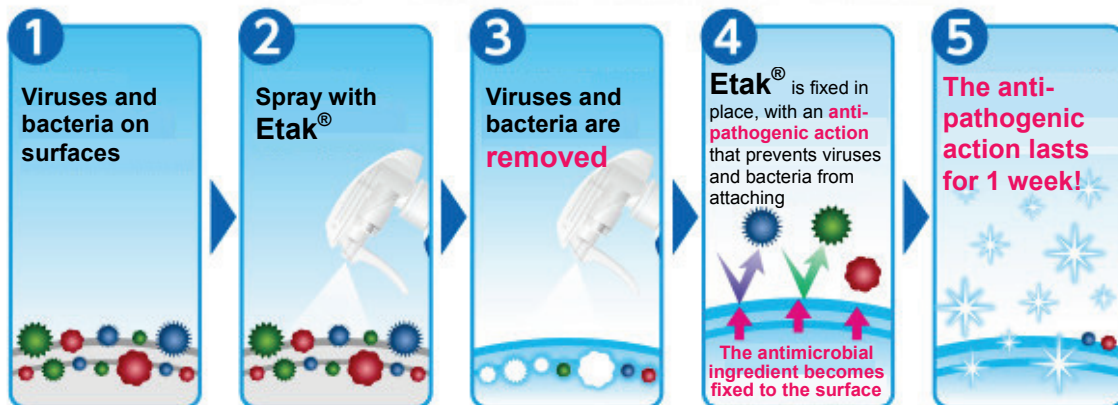

Aim the nozzle at the item you want to spray and spray a suitable amount from a distance of 20 to 30 cm.

- When starting to use a new bottle, press the trigger several times before use.
- So that the spray is applied evenly, wipe it to spread it out, for example with a cloth.
- Do not use this product upside-down.

Long-lasting anti-pathogenic action

Squirt it on areas you want to keep clean and quickly wipe

Removes viruses and bacteria, with an anti-pathogenic action that lasts for 1 week!
